

## **SECURE CHECK PRINTING**

Checks aren't going away—at least not overnight. According to a recent Federal Reserve Payments Study, checks remain the most trusted form of non-cash payment type in America.

## The Future of Checks

Over the past decade, advances in technology have streamlined the check process for financial institutions, individuals and business consumers. Recent changes like Check 21 and back-office conversion, make writing, processing and accepting checks easier than ever. These changes create more efficient processing systems and increase the security, reliability and convenience of paper checks.

Since our inception in 1982, IC Group has served many financial and commercial institutions. Our mission at that time, as it is today: provide high quality business and software compatible banking products with easy ordering channels, within a fast production time frame, at a competitive price. Twenty-five years later, we continue to provide business owners and consumers the highest level of security and value on their banking products.

### Deluxe checks for your business.

Need checks for your business? Banks trust IC Group for reliable MICR quality—and that's an endorsement you can literally take to the bank. IC Group offers a full line of checks in the most popular formats for business, including:

- Laser Checks
- Continuous Checks
- Three-To-A-Page Checks
- Voucher Checks
- Executive Checks

### Need computer checks?

You can rely on our software compatibility. Quality laser and continuous checks from IC Group can help you get the best performance possible from your accounting software.

Choose from:

- Accounts Payable Checks
- Payroll Checks
- General Disbursement Checks
- Multi-Purpose Checks

We have compatible checks for 100% of today's popular accounting software programs, including Quicken®, QuickBooks®, Peachtree®, and Sage®.

### Manual checks are convenient and cost effective.

Writing a check by hand? It's still the most uncomplicated way to make a payment. Even if you pay bills by computer, you'll find a second, manual check-writing system can be more convenient for those times when you write just one or two checks at a time. Our most popular manual check products include:

- Three-To-A-Page Checks
- Executive Systems
- Voucher Checks

### Security features fight against fraud.

Defend your business against the growing problems of check counterfeiting and fraud. IC Group's computer checks and manual business checks use a rigorous check protection system that EXCEEDS industry guidelines. Every IC Group check features multiple security devices for your protection, such as copy-resistant microprints and security screens, chemical tamper-resistant security paper, and a warning box with authentication instructions. IC Group Checks are in full compliance with standards set forth by the Check Payment Systems Association.

### More than a check printer.

IC Group also offers deposit slips, business forms, double window mailing envelopes, endorsement stamps, register book and personalized promotional products. Check out our full line of business products.
